COMP 2005

Communication Log – Group 2

Date	Comment
Feb 24-28	Ongoing communication on Discord about responsibilities and dates for rough drafts
Feb 25	Had a brief group meeting to make sure all assigned tasks had been started
March 2-6	Ongoing communication on Discord and rough drafts uploaded to Github repository
March 3	Group met with Professor to discuss ways to improve on Iteration 1, and to discuss ideas for Iteration 2
March 5	Group got together from 2-6pm to work as a group on Iteration 2 requirements. Members worked on their own or in small groups to make sure all requirements were complete.
March 5	Andrew met with Professor to go over revised Domain Model to make sure the revision was done correctly.
March 6	Andrew went to Professors' office hours to discuss our use cases and sequence diagrams. Also showed professor our Class Diagram to make sure we are on the right track.
March 6	Final group meeting of Iteration 2. All group members went over all Iteration 2 requirements to make sure everything was complete.

Notes:

-No communication issues to report. All members have been active on Discord and have replied within 24 hours to requests/questions.

-All members have been attending group meetings regularly.

-Have had at least 1 group meeting every week to make sure our schedule is being followed and all work is being done by the appropriate group member.

-Coding has been done in group and individually both at school and at home. Github being used for code updates/changes using different branches and merging with master once reviewed.
